 John Henry Foster

Structural Aluminum Framing and Assembly

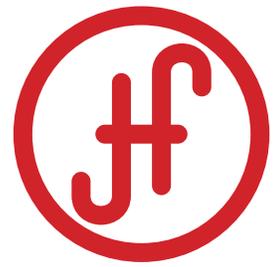

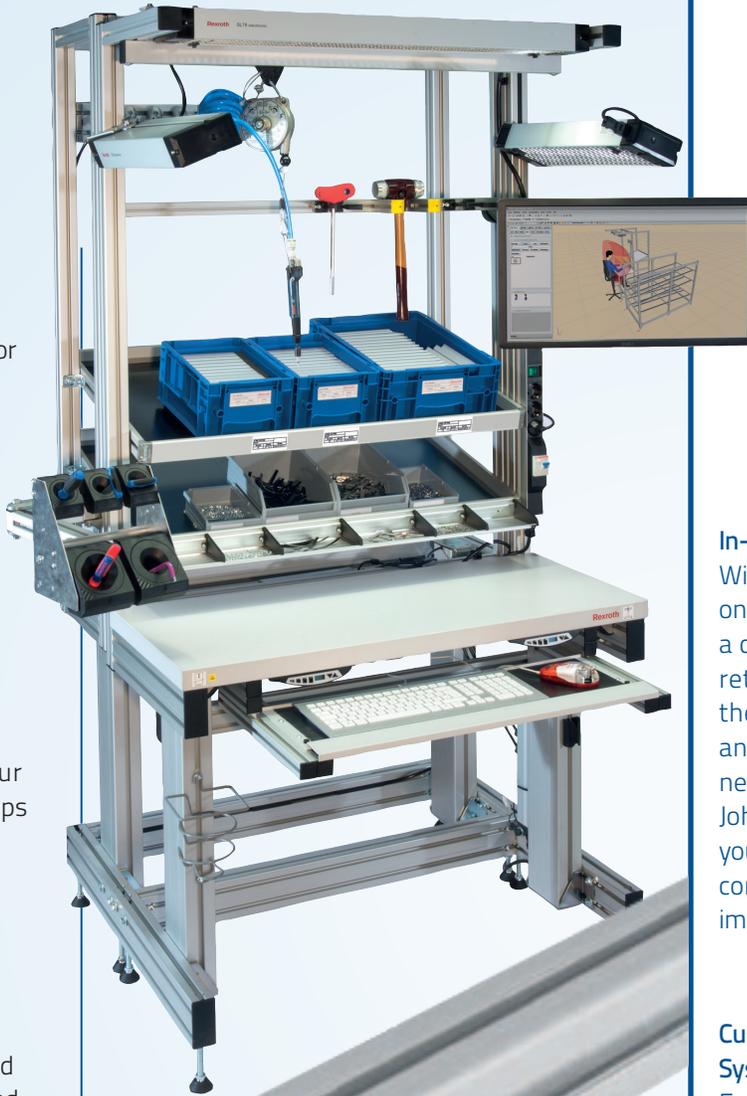

As a stocking, full-service, authorized distributor of Bosch-Rexroth, we offer infinite framing system flexibility and possibility. Custom framing, manual production stations and conveyor and ID systems are just a few possibilities with versatile, aesthetically pleasing and maintenance-free aluminum. At John Henry Foster, our experts will work with you to design a structure or system tailored to your application.

Vacuum Products

Our line of vacuum products will serve your workholding needs. From suction cups to pumps and even entire vacuum systems, John Henry Foster can help.

Workholding Clamps and Grippers

John Henry Foster can supply all of your workholding clamp needs. Representing trusted manufacturers such as DESTACO and Robohand, we offer a complete line of pneumatic, hydraulic, electric or manual toggle clamps and gripper for your next material handling project.

In-Stock Components

With over \$8 million of on-the-shelf stock and a convenient, on-site retail store, we have the reliable products and assemblies your next project demands. John Henry Foster has you covered with crucial components available immediately.

Custom-Engineered Systems & Solutions

From value-added assemblies to complete, custom-engineered and integrated systems, JHF can help. Our experienced engineers will work with you and your sales advisor from start to finish — to achieve optimum form, fit and function for your application. We will recommend, design, fabricate and install systems that maximize productivity, efficiency and profitability.
