

# Why You Should Trust Your Repairs To John Henry Foster

- **JHF has the most extensive testing procedures** in the area. Our custom built cylinder test stands cycle repairs — holding pressure at fully extended & fully retracted — for programmable intervals and at precise operating temperatures to recreate real world conditions.
- **A JHF Repair Specialist provides free evaluations to determine cause of failure** *and* free, no obligation quoting. In many cases, our certified and factory trained technicians can prevent further break downs by customizing the repair for the application.
- **JHF provides free pick up and deliver of repairs.** We see first-hand the work application environment and address any concerns on the spot.
- **24-Hour emergency parts & service.** Simply call your Repair Specialist Conrad Hoover at 636-236-2044.
- **All JHF repairs include a one year limited warranty.**
- **JHF reduces repeat repair costs & turnaround times** using CNC machining equipment to call up a library of your previous repairs.
- **JHF has a Tuxco machine that prevents misaligning the rod and the barrel** during tear down and assembly. The Tuxco is designed to disassemble even the most stubborn of cylinders.
- **JHF is an employee owned company (ESOP).** Every employee is an owner.....we take a personal interest in taking care of you.
- **JHF is the largest distributor of hydraulic & pneumatic equipment in the Midwest;** providing unparalleled service since 1944. With over 69 years in business, we strive to continually improve our service to you.
